

PROTECT, DEFEND AND RESPOND TO A DATA BREACH

CSID is able to help organizations quickly respond and mitigate the effects of a data breach through rapid contract and solution deployment.

Data breaches have become a statistical certainty in today's technology enhanced world. With CSID's data breach protection, your organization can not only respond quickly and offer prompt resolution in the event of a breach, you can also be proactive in guarding the data your organization and entities expose.

CSID provides end-to-end breach management and protection capabilities through a distinct solution that includes:

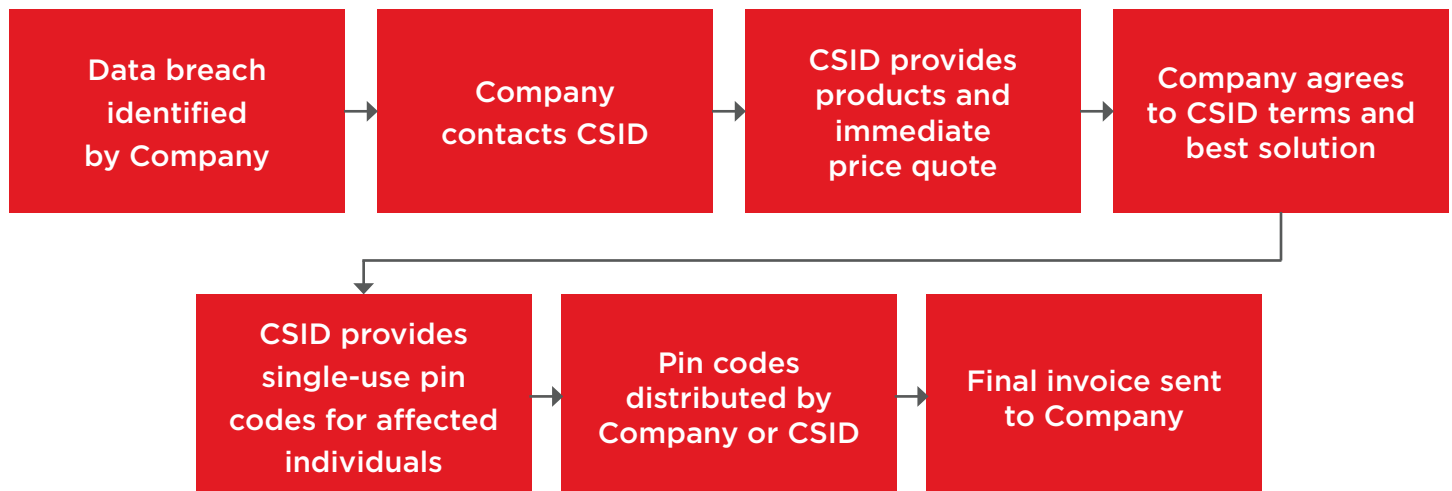

- Identity protection products
- Public Relations communication and management
- Consumer notification services and call center support
- Monthly management reports highlighting enrollments and call volumes
- Full-service identity restoration services
- Advisory services

1 in 4

One in four consumers received data breach notifications in 2014 - an increase of 250% since 2013

Data Breach Mitigation – Quick, Comprehensive Solution

CSID is able to help organizations quickly respond and mitigate the effects of a data breach through rapid contract and solution deployment.

PROTECT, DEFEND AND RESPOND TO A DATA BREACH

A part of Experian

Comprehensive Identity Protection Offering

CSID provides a 360° approach to identity protection. In addition to standard credit monitoring, CSID offers additional safeguards to protect more than just your credit through our unique, proprietary technology.
